Manufacturers Representative

Wilo USA Chief Technical Engineer Leading Sept. 20 Class at DB Sales

Learn about Wilo Energy Efficiency Pump Systems from Start-up through Trouble Codes

DB Sales welcomes you to its facility for a free five-hour technical training class to expand your understanding of the Wilo ECM Pump system.

If you currently have a Wilo pump system installed, you will learn more about how to optimize the value of this system. If you are considering a high-efficiency pump system, you will be a much more knowledgeable buyer at the end of this training session. Lunch will be provided.

Date of Training: Tuesday, Sept. 20, 2016 - 9 AM to 2 PM

Current users of Wilo Pumps and potential users. The presentation is oriented to
