Frequently Asked Questions

Why choose DB Sales & Service for our Rental?

We have the largest, newest temporary boiler inventory, fast delivery and turnaround. Our expert Engineer Service Technicians are available 24/7 for your team.

What are Rentals best suited for?

- Eliminating Downtime
- Temporary Extra Capacity Needs
- Emergency Plant Needs
- Continued Operation During Planned Offline Maintenance

Does DB Sales & Service offer installation?

DB Boiler technicians are available for your convenience to provide installation and start-up service at an additional charge.

Who pays the freight for the Rental?

Freight costs are the Lessee's responsibility. DB will arrange loading and unloading (crane services, if required) at the site location. Lessee must pay for the unloading and reloading at the site location.

Who provides insurance?

The Lessee agrees to provide full protection of Rental equipment. Generally, your boiler insurance policy and general liability insurance will automatically pick up this risk. Refer to the Lease Rental Agreement for equipment value and details.
